Hawkins Construction
(On behalf of Downer NZ Ltd)

Auckland Town Hall Restoration & Strengthening

*Initial
construction
- 1910*

BUILDING IN PROGRESS 1910

Auckland Town Hall Restoration & Strengthening

*86 Years later
- 1996*

*Note the
building shape
– acute angles
– lack of
symmetry*

RESTORATION IN PROGRESS 1996

Auckland Town Hall Restoration & Strengthening

*No room for Piling Rig
- Piles were hand dug!*

*Fibreglass mesh
to strengthen brick walls*

Columns cut into sandstone

*Temporary support
to two levels of brick
whilst tie wall was removed
& replaced*

RESTORATION IN PROGRESS 1996

Auckland Town Hall Restoration & Strengthening

*Inside the
Great Hall*

Auckland Town Hall Restoration & Strengthening

*Innovative
strengthening
methods*

Auckland Town Hall Restoration & Strengthening

*Innovative
strengthening
methods*

Auckland Town Hall Restoration & Strengthening

Building new structures on the roof

RESTORATION IN PROGRESS 1996

Auckland Town Hall Restoration & Strengthening

*Completed
- 1997*
